Grading for Project Phase A: Problem Statement, Use Cases, UI Mocks

Team:	102
Repo name:	cs5500/ team-102
Repo commit date	Feb 2
Graded by	Weintraub
Total Score	90

One-page statement describing plan and target language (35 points)

No statement of scope. -5

5-10 Use Cases (35 points)

Confusion between pre-conditions and triggers in use case 1. Also, some use cases have more than one primary actor. Some use cases confuse pre-conditions and the scenario. Some pre-conditions are stated as actions taken rather than states, e.g. Use Case 4, *Professor should navigate to the home page*. Also, the use of *should be* is too ambivalent; taken as written, this means the pre-conditions are optional. -5

One or more UI mock-ups (30 points)
